

BUREAU OF INDIAN STANDARDS

Program of Work

ETD 19 : High Voltage Engineering

Scope: To prepare standards for high voltage testing techniques and for different types of tests belonging there to such as high voltage ac, dc and impulse tests and high current impulse tests, definitions and basic principles of insulation coordination and insulation levels To prepare application guides recommending the insulation levels in relation to possibilities of over-voltage protection devices. The work also includes formulation of standards for clearances and creepage distances

Liaison: **IEC TC-109 (P):** *Insulation co-ordination for low-voltage equipment* **IEC TC-42 (P):** *High-voltage and high-current test techniques* **IEC TC-99 (P):** *Insulation co-ordination and system engineering of high voltage electrical power installations above 1,0 kV AC and 1,5 kV DC* **ISO TC-106 (P):** *Methods for the assessment of electric, magnetic and electromagnetic fields associated with human exposure*
