Requests received via email/letter

1. Concrete Engineers Association, New Delhi

<p>Dear Sir,</p> <p>We hope this email finds you well. We are writing to you in reference to the meeting held on 14th November 2023 at your office, where we discussed the imperative need for contribution of industry experts in the formulation and upgradation of various BIS Codes within the Civil Engineering domain.</p> <p>As an outcome of our insightful discussions, we are pleased to submit the list of esteemed experts from the Concrete Engineers Association in relevant Technical Committees and Sub-Committees of the Bureau of Indian Standards (BIS). These experts possess a wealth of experience and profound knowledge in various civil engineering applications, making them invaluable contributors to the ongoing enhancement of BIS Codes.</p> <p>We have compiled a list of highly qualified individuals from the Concrete Engineers Association, each with expertise in specific areas that align with the diverse aspects of civil engineering. These experts are well-versed in the latest advancements and industry best practices, and we are confident that their inclusion in the Technical Committees and Sub-Committees will significantly enhance the formulation and upgradation processes of BIS Codes.</p> <p>We kindly request your consideration of the following names for inclusion:</p>

2. Dr Dharmendra Kumar Shukla, Assistant Professor, Jaypee University of Engineering and Technology, Guna (MP)

Dear Sir,

With reference to the subject, I want to contribute in the area of cement and concrete sustainable development. I did studies like recycled fine aggregate obtained from C & D waste in concrete, Utilization of sewage sludge ash in cement etc.

Currently, I am working on bottom ash usage with replacement of sand in concrete.
Few publications are attached for your reference.
Kindly consider.

4. Ms Conchem Labs Pvt Ltd, Mumbai

Dear Sir,

We, Conchem Labs, are a company developing innovative material technologies to ensure infrastructure durability and structural stability. We develop and offer high performance, functional additives which are technologically advanced, unconventional solutions.

Our portfolio consists of products like advanced corrosion inhibiting admixture for new construction, corrosion protective capsules for existing old buildings, anti-lump additive for cement among others. With a huge positive impact, our solutions can contribute toward durability and sustainability. **Please find herewith, our brief company introduction.**

Conchem Labs is an active and innovative player in the infrastructure construction, concrete and cement industry, and shall be able to contribute positively in the **Cement and Concrete Sectional Committee, CED 02**. We look forward to your positive response to our request **to make us a member of CED 02 committee.**
