4/5/24, 11:54 AM Proposal Details

A. Proposal Details

Part - 1

users and compact space. This standard is intended to assist potential users 8. Most Relevant Technical Department ETD (Electrotechnical Department) Part - 3 9. Scope of proposed standard The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons ,including wheelchai users and compact space.	Tare 1		
2. Email ID bela@nibavlifs.com 3. Phone 9176418226 4. Address 105, Bethel Nagar St., Industrial Estate, Perungudi, Chennal, Tamil Nadu 600096 Part - 2 5. Proposed title of Standard Air Driven Elevator 6. Aspect Product Specification 7. Define subject of standard Product Specification 7. Define subject of standard Product Specification 7. Define subject of standard Product Specification 8. Most Relevant Technical Department ETD (Electrotechnical Department) For Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchair users and compact space. This standard is intended to assist potential users and compact space. 10. Purpose and Justification For Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchair users and compact space. 10. Purpose and Justification For Elevator Controls to have case of operation. 11. Likely users of standards and their inputs Account of the Elevator. Controls to have case of operation. 12. Any related standards/series of standard/system standard required to make this subject standard complete 13. When the final standard would be required 29-09-2023 14. Any specific problem being faced without this standard subject standard 15. Bearing with Govt legislation regulation, etc Nibav Liffs Private Limited, 105, Bethel Nagar St, Industrial Estate, Perungudi, Chennal, Tamil Nadu 600096.	Organization Type: Others		
3. Phone 9176418226 4. Address 105, Bethel Nagar St, Industrial Estate, Perungudi, Chennai, Tamil Nadu 600096 Part - 2 5. Proposed title of Standard Air Driven Elevator 6. Aspect Product Specification 7. Define subject of standard The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. This standard is intended to assist potential users 8. Most Relevant Technical Department ETO (Electrotechnical Department) Part - 3 9. Scope of proposed standard Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. 10. Purpose and Justification For the purpose of this standard the following, Compact Design in view of the limitations of space in where in installation. Special facilities to meet the needs of elderly and annual part of the Elevator. Controls to have ease of operation. 11. Likely users of standards and their inputs ACOMPACT DESIGN OF AIR DRIVEN APPLICATION LIKE (Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users). 12. Any related standards/series of standard/system standard required to make this subject standard complete 13. When the final standard would be required 29 09 2023 14. Any specific problem being faced without this standard would be required 29 09 2023 15. Bearing with Govt legislation regulation, etc yes 16. Name and address of manufacturers/ implementing/ industries/ purchasing organization 17. Periodic Technical Department (Personal Complete) 18. Nibav Lifts Private Limited, 105, Bethel Nagar St, Industrial Estate, Perungudi, Chennai, Tamil Nadu 600096.	1. Name of Proposer	BALA SRINIVASAN C	
A. Address 105, Bethel Nagar St, Industrial Estate, Perungudi, Chennai, Tamil Nadu 600096 Part - 2 5. Proposed title of Standard Air Driven Elevator 7. Define subject of standard The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. This standard is intended to assist potential users 8. Most Relevant Technical Department ETD (Electrotechnical Department) The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. 10. Purpose and Justification For the purpose of this standard the following, Compact Design in view of the limitations of space in where in installation. Special facilities to meet the needs of elderly and handicapped persons, including wheelchai rusers, Quiet, smooth, Jerk. Free Movement of the Elevator, controls to have ease of operation. 11. Likely users of standards and their inputs A COMPACT DESIGN OF AIR DRIVEN APPLICATION LIKE (Special elevators to meet the needs of elderly and differently abled persons, including wheelchair users). 12. Any related standards/series of standard/system standard required to make this subject standard CESTD, BS EN 81 41:2010 (CESTD), ASME A17.1.2019 CSA B44:19 (ASME STD) 13. When the final standard would be required 29-09-2023 14. Any specific problem being faced without this standard and address of manufacturers/ implementing/ industries/ purchasing organization Nibav Lifts Private Limited, 105, Bethel Nagar St, Industrial Estate, Perungudi, Chennai, Tamil Nado 600095.	2. Email ID	bala@nibavlifts.com	
Part - 2 5. Proposed title of Standard Air Driven Elevator 6. Aspect Product Specification 7. Define subject of standard The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. This standard is intended to assist potential users 8. Most Relevant Technical Department ETD (Electrotechnical Department) Part - 3 9. Scope of proposed standard The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact pass of the Elevator of the Elevator. Special facilities to meet the needs of elderly and handicapped persons, including wheelchair users. Quiet, smooth, Jerk. Free Movement of the Elevator, controls to have ease of operation. 11. Likely users of standards and their inputs A COMPACT DESIGN OF AIR DRIVEN APPLICATION LIKE (Special elevators to meet the needs of elderly and differently abled persons, including wheelchair users). 12. Any related standards/series of standard/system standard required to make this subject standard (CE STD), BS EN 81-41:2010 (CE STD), BS EN 80-2010 (CE STD), BS EN 80-2011 (CE	3. Phone	9176418226	
5. Proposed title of Standard 6. Aspect Product Specification The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. This standard is intended to assist potential users 8. Most Relevant Technical Department ETD (Electrotechnical Department) Part - 3 9. Scope of proposed standard The Air Driven Elevator designed by Nibav are customizable and compatible. Special elevators to meet the needs of elderly and differently abled persons, including wheelchai users and compact space. 10. Purpose and Justification For the purpose of this standard the following, Compact Design in view of the limitations of space in where in installation. Special facilities to meet the needs of elderly and handicapped persons, including wheelchair users Quiet, smooth, Jerk - Free Movement of the Elevator. controls to have ease of operation. 11. Likely users of standards and their inputs A COMPACT DESIGN OF AIR DRIVEN APPLICATION LIKE (Special elevators to meet the needs of elderly and differently abled persons, including wheelchair users). 12. Any related standards/series of standard/system standard required to make this subject standard complete 13. When the final standard would be required 29-09-2023 14. 17. Status of the industry in the country	NIBAV is the manufacture of premier air driven elevator that adhere to the highest standards of quality and safety. Manufactured in India, NIBAV has a world-renowned presence in 14 different countries. With 44 functioning experience centers all over the globe and many more in the pipeline, the organization is known for its impeccable service and mission to deliver par excellence. The company has two state of the art art manufacturing facilities and two special Engineering and Design Centers in Chennai. With its unwavering commitment to quality and safety, NIBAV has established itself as a leader in the premier air driven elevator industry and the organization prides itself on providing customizable solutions. As the only brand with a coveted TUV certification for air driven elevator NIBAV remains dedicated to upholding the highest standards of quality and reliability. The companys global footprint continuees to expand and its poised to become a major player in the air driven elevator.
18. Availability of test facilities in the country	chennai
19. Whether related to variety reduction, export, health, safety consumer protection, mass consumption, energy conservation, technology transfer, technology upgradation, protection of environment & other National priorities	Special facilities to meet the needs of elderly and differently abled persons ,including wheelchair users and compact space. This standard is intended to assist potential users
20. Whether subject requires consideration to be given to women/girl issues in line with Sustainable Goal 5 of the UN. If so, whether the issues are proposed to be addressed suitably in the proposed standard	yes
21. Relevant supportive document (download docs)	1. Attachment 🚣
22. R & D work done in india	nibav lifts Private limited , Installed Established research and Development Center in chennai (india) , R & D Conducted Based On Load Test , Breaking test
23. Any foreign collaboration (give details)	No
24. Liaison with any organisation(s)	No Liaison with any other organization .Nibav lifts pvt ltd Is independent organization
25.A. Preparatory work	draft attached
25.B. Preparatory work (Details)	process flow chart Attachment Attachment
26. Whether this project can be funded by your organization	yes
	yes
