EXECUTIVE SUMMARY

In past 8 years, I have been active in various XBRL related activities across Middle-East, & Asia-Pacific region. Have worked with stock exchange regulators in UAE, Saudi Arabia, South Africa and India to develop IFRS and local GAAP based taxonomies to support their respective filing requirements. I have also developed taxonomy for brokers to file their capital adequacy returns with one of the regulators in UAE.

I have worked on various research and development projects as well to identify the usage of XBRL in the fields of investigation, budgeting, consolidation, forensic analysis, etc.

I have keen interest in identifying unconventional ways of putting XBRL into usage and demonstrating the benefits derived from it. Have already completed numerous research studies and shared with regulators within India. Research is a very important aspect for any technology and XBRL is no exception to it. Within BIS, I would like to share my personal experience from various XBRL implementation projects to put them to use for development of future requirements confirming the usefulness of XBRL in new avenues.

WORK PROFILE

Key responsibility areas: XBRL Taxonomy Designing, XBRL Training, Implementing XBRL solutions and consulting services.

Date of Joining IRIS: - 10 March 2010

Total experience in IRIS and XBRL Domain: - 14 years

Key XBRL projects involved in: -

- 1) UAE; for Emirates Securities and Commodities Authority (SCA)
- 2) Saudi Arabia; for Saudi Stock Exchange (Tadawul)
- 3) South Africa; for Johannesburg Stock Exchange (JSE)
- 4) India; for Institute of Chartered Accountants of India (ICAI)
- 5) India; for Reserve Bank of India (RBI)
- 6) Singapore; for Accounting and Corporate Regulatory Authority (ACRA)
- 7) Malaysia; for Suruhanjaya Syarikat Malaysia (SSM)
- 8) Saudi Arabia; Ministry of Commerce and Industry (MCI)
- 9) Thailand; Department of Business Development (DBD)
- 10) Qatar; Qatar Financial Centre Regulatory Authority (QFCRA)
- 11) Iran; Securities and Exchange Organization (SEO)
- 12) Mauritius; Bank of Mauritius (BoM)
- 13) Turkey; Central Securities Depository (MKK)

#	Task Details	Responsibility / Work Undertaken
1	Suruhanjaya Syarikat Malaysia	Being a consultant was engaged in identifying creating data modeling

	(SSM), Malaysia	approach and implementing XBRL enabled data collection Platform.
		Research activities were conducted to identified various reporting
	Role in project: - XBRL Consultant and	requirements and scope of implementing IFRS Taxonomies for data collection process. Separate taxonomies were created for separate
	Taxonomy Lead	sets reporting under Malaysian local GAAP along with requisite
	Project start year :- 2017 Project End year :- 2019	validation rules within formula linkbase. Table linkbase was also
	110ject Enu year :- 2017	prepared to ensure the presentation layer for all filings are
		standardized and structured. Apart from financial reporting
		taxonomies, Annual return taxonomies were also built to cater to
		reporting requirements under companies' law.
2	Qatar Financial Center Regulatory	The scope of work was to develop Banking and insurance sector
	Authority, Qatar	prudential reporting XBRL taxonomy which fulfills the requirements
		of BASEL II and III for banking returns and Solvency II for insurance
	Role in project: - XBRL Consultant and	returns. The taxonomy was developed in 3 phases. The architecture of
	Taxonomy Lead	taxonomy is based on highly dimensional structure with each data
	Project start year :- 2013 Project End year :- 2015	point identified uniquely in definition linkbase.
3	Saudi Stock Exchange (Tadawul)	Development of industry level taxonomy based on <u>IFRS 2011</u>
		taxonomy and Saudi GAAP, also develop taxonomies for Mutual fund
	Role in project :- Taxonomy Lead	filing, bond filing and corporate announcements. Information being
	Project start year :- 2011	collected includes financial statements, mutual fund reports, and
	Project End year :- 2013	various financial ratios. Perform analysis of all the above documents
		and provide a simplistic and effective way of reporting such
		documents by companies listed on Saudi Stock Exchange which would
		aid in development of a filing system for listed companies that would
4	Securities and Commodities	replace the existing system in place for filling at Saudi Stock Exchange
4	Securities and Commodities Authority (SCA), UAE	Development of industry level (SCA listing requirement) financial reporting taxonomies taking IFRS 2011 taxonomy as the base. Since
	Authority (SCA), OAE
