

TO ALL NATIONAL COMMITTEES

Dear Sir/Madam,

ISO/IEC JTC 1/SC 43: BRAIN-COMPUTER INTERFACES

AhG 7: Application of Non-Invasive BCI for Disorders of Consciousness - Call for experts

Background

At the 5th plenary meeting of JTC 1/SC 43 in Sydney, Australia, it was decided to set up the ad hoc group 7. The working group title and term are:

AhG 7: Application of Non-Invasive BCI for Disorders of Consciousness

Tasks:

1. Track the issues and concerns, and identify potential works related to the BCI application for disorders of consciousness.
2. Facilitate the development of a PWI on application of Non-Invasive BCI for disorders of consciousness.
3. Conduct the gap analysis of relative standards.

National Committees are kindly invited to nominate experts, who should have expertise in the field of Application of Non-Invasive BCI for Disorders of Consciousness and could make an effective contribution to the work of this WG.

Nominations for experts for **AhG 7** shall be submitted by the National Committees via the [IEC Expert Management System](#) **no later than**
