Industrial Fabrics Sectional Committee, TXD 33

FOREWORD

This Indian Standard (First Revision) was adopted by the Bureau of Indian Standards, after the draft finalized by the Industrial Fabrics Sectional Committee had been approved by the Textiles Division Council.

This standard was first published in 1975 which superseded IS 6055 : 1970 'Specification for sizing flannel.' The present revision has been made in the light of experience gained since its publication and to incorporate the following major changes:

- a) Title of the standard has been modified.
- b) Amendment 1 and 2 have been incorporated in the standard.
- c) References to Indian Standards have been updated.

Sizing flannel is a plain/or twill woven fabric made of wool fibres only or blends of wool and man-made fibres. This cloth is imparted a soft finish on one side which partially conceals the weave. The term flannel refers to woven fabrics which have been fulled to make them denser. The fabrics are also brushed to raise a nap on one or both sides, which gives the fabric a soft, fuzzy texture. Sizing flannel fabric finds its applications in shirts cardigans, sweaters, vests, sheets, blankets, industrial upholstery and machinery fabrics.

This series of standards on machinery fabrics is published in the following parts:

Part 1 General; Part 2 Clearer cloth; Part 3 Sizing flannel; Part 4 Plaiding cloth; and Part 5 Lapping cloth.

Part 1 covers the general requirements and other particulars regarding marking, packaging, sampling and criteria for conformity of machinery fabrics.

The composition of the committee responsible for the formulation of this standard is given in Annex B.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated expressing the result of a test or analysis, shall be rounded off in accordance with IS 2: 2022 'Rules for rounding off numerical values (second revision)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

Indian Standard TEXTILES — MACHINERY FABRICS, WOOL — SPECIFICATION PART 3 SIZING FLANNEL

(First Revision)

1 SCOPE

This standard (Part 3) prescribes the manufacturing particulars and other requirements of sizing flannel.

2 REFERENCES

The standards listed in Annex A contain provisions which, through reference in this text, constitute provisions of this standard. At the time of publication, the editions indicated were valid. All standards are subject to revision and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent editions of these standards.

3 MANUFACTURING PARTICULARS

The manufacturing particulars of sizing flannel are given in Table 1.

Table 1 Manufacturing Particulars of Sizing Flannel (Clause 3)

Sl No.	Particulars	Requirements	Methods of Tests
(1)	(2)	(3)	(4)
i)	Composition of yarn a) Warp	All wool or blends of wool with synthetic fibres/flax containing wool	IS 7610 (Part 1)
		content of not less than 80 percent.	
	b) Weft	All wool or blends of wool with synthetic fibres/flax containing wool content of not less than 80 percent.	
ii)	Nominal count of basic yarn (Warp and weft)	100 to 250 tex (Nm 4 to 10)	IS 1315
iii)	Threads per dm		IS 1963
	a) Ends	100 to 135	
	b) Picks	85 to 120	
iv)	Weave	Plain or twill	Visual
v)	Type of finish	Milled or raised (raising may be	-
		done on both or either side of the	
		fabric as specified by the buyer).	

NOTE — The constructional particulars of cloth are left to the choice of the manufacturer subject to the range specified for counts of yarn and number of ends and picks.

4 REQUIREMENTS

The sizing flannel shall conform to the

requirements given in Table 2 in addition to complying with the stipulations laid down in IS 7610 (Part 1).

(<i>Clause</i> 4)			
SI No.	Characteristic	Requirement	Method of Test
(1)	(2)	(3)	(4)
i)	Mass, g/m ²	350 to 550	IS 1964
	Tolerance	+ 5 percent on the specified value	
ii)	Breaking strength on 5 cm x 20cm		IS 1969 (Part 1) strips (kgf), Min
	 a) For fabrics made of wool or blends containing at least 80 percent of Wool fibres in 		
	1) warp yarn	60	
	2) Weft way	50	
	b) Other fabrics		
	i) Warp way	200	
	ii) Weft way	75	
iii)	Length, m, Min	25 or as agreed between buyer and seller	IS 1954
iv)	Width, cm	1 37 160 or as agreed between buyer and seller	IS 1954
	Tolerance		<u>+</u> 2.5 cm

Bureau of Indian Standards

BIS is a statutory institution established under the *Bureau of Indian Standards Act*, 2016 to promote harmonious development of the activities of standardization, marking and quality certification of goods and attending to connected matters in the country.

Copyright

BIS has the copyright of all its publications. No part of these publications may be reproduced in any form without the prior permission in writing of BIS. This does not preclude the free use, in the course of implementing the standard, of necessary details, such as symbols and sizes, type or grade designations. Enquiries relating to copyright be addressed to the Head (Publication & Sales), BIS.

Review of Indian Standards

Amendments are issued to standards as the need arises on the basis of comments. Standards are also reviewed periodically; a standard along with amendments is reaffirmed when such review indicates that no changes are needed; if the review indicates that changes are needed, it is taken up for revision. Users of Indian Standards should ascertain that they are in possession of the latest amendments or edition by referring to the website-www.bis.gov.in or www.standardsbis.

This Indian Standard has been developed from Doc No.:TXD 33 (16930).
