

## ANNEX 2

### Comments on draft IS 7691

Sr. No.	Basic Details	Clause/Subclause No.	Comment
1.	VIT, Vellore	1.1, Table 1	The standard prescribes standard frequencies for <i>machine tools</i> . However, Table 1 does not recommend any standard frequencies for <i>machine tools</i> .
2.	E A Murmu	Note 2 to Table 1	<p>It has been mentioned that <i>The values underlined in the 50 Hz series are recommended as preferred values for non-portable tools</i>. However, in Table 1 pertaining to the note, none of the frequencies have been underlined as preferred values.</p> <p>It may also be noted that IS 7961: 1975 and base standard IEC 60916: 2009 do have underlined preferred frequency values.</p>
