Dear Vinodini ,

With respect to IS 16333(Part 1} our views are as follows ;

1 Part 1 Title is safety requirements and for safety it refers to IS13252 . Mobile safety is also UNDER CRS and is tested as per IS13252 .

2 In addition to safety the standard (Part1) also covers performance requirements such as SAR ,RoHS ,EMC/EMI,RF.IMEi etc.

These basically does not relate to Safety ,

In view of above we suggest not to make any changes in Part 1 and present status to continue .

Regards

SUKH BIR SINGH

Subject: Re: regarding review of Indian standards

Dear All,

This is with reference to the trailing email . As discussed and decided in the last meeting of LITD 13 the following standards are allocated to members representing the organizations mentioned below in the table for their review and feedback about the usefulness of the standards in the present scenario . Pl send your comments on the standards as whether the standard is presently in use or is there any need to revise /withdraw the standard. please send your comments at the earliest so that it can be discussed in the 07.04.2022 meeting.

Please let me know if you have any questions.

Warmly,

Vinodini kishore,
Bureau of Indian Standards.
