DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : CHD 10/(25200)C

Date: 11 September 2024

TECHNICAL COMMITTEE: Glass, Glassware and Laboratoryware, CHD 10

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Glass, Glassware and Laboratoryware Sectional Committee, CHD 10. Please [click here](#) to view the document.

Document Number: CHD 10 (25200) WC

Title of the document: Principles of Design Construction and Use of liquid-In-Glass Thermometers (Second Revision)

Document Type: Revision of Indian Standard (IS 8787: 2018)

This document has the following salient features which may require specific attention for your valuable comments:

- 1) Liquid-in-glass thermometers are used in industry, laboratories, teaching institutions, homes, hospitals etc. wherever measurement of temperature has any significance. As these thermometers are fragile and are designed to serve a large variety of purposes, it is important that they conform to some specific sets of requirements depending on their end use, so that they provide dependable service and are easily replaceable in case of breakage. For this purpose, it is considered necessary to lay down general guidelines for formulation of specifications for such thermometers.*
- 2) This standard was originally published in 1977. The first revision of this standard was undertaken in 2018 by adopting ISO 386: 1977. Later, in 2022, the ISO decided to withdraw its thermometer standards in relation to the Minamata Convention where mercury shall be removed from products by 2025. However, the committee responsible for formulating this standard decided to revise the standard and by providing alternative thermometric liquids in addition to the mercury as liquid-in-glass thermometers are still in use in the country.*

Please examine the document and share your comments regarding further improvement in the document.

The last date for sharing the comments is: 11 November 2024

The comments should be shared in the prescribed template through this portal only, and the comments so received shall be taken up by the Sectional Committee for necessary action. For any other query, please write an email at chd10@bis.org.in to the undersigned at Bureau of Indian Standard, Manak Bhawan, 9, Bahadur Shah Zafar Marg, New Delhi.

Kindly note that it is mandatory for the committee members to provide their comments on all the WC drafts. Even if you agree with the contents of the draft and do not have any technical comments, please write no comments to offer and you agree with the draft and submit it through the BIS portal.

Thanking You,
