Reference : CHD 25 (26344)

Date : 07 August 2024

TECHNICAL COMMITTEE : Soaps, Detergents and Surface Active Agents, CHD 25

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Soaps, Detergents and Surface Active Agents Sectional Committee, CHD 25. Please [click here](#) to view the document.

Document Number : CHD 25 (26344) WC

Title of the document : Disinfectant Fluids Phenolic Type Specification Sixth Revision

Document Type : Revision of Indian Standard (IS 1061 : 2017)

This document has following salient features which may require specific attention for your valuable comments:

1) In this revision, the committee decided to amalgamate IS 1061 and IS 10758 as both the products are essentially disinfectants containing phenolic components. Further, the de-odourising-cum-disinfectant fluids have additional property of de-ordourising to suppress the foul smell emitted due to decay of bacteria and fungi. Pine oil, Castor oil, Coaltar acid, Creosate oil etc., are extensively used for disinfectant-cum-de-odourizing purposes. Further, amendments issued to these standards have also been incorporated. Further, provisions have been made to incorporate phenolic coloured disinfectant fluids, The non-phenolic type of disinfectant fluids is not covered in this standard. Due consideration has been given to the provisions of schedule 'O' of Drugs and Cosmetic Rules, 1945. However, this standard is subject to the restrictions imposed under these rules wherever applicable.
