DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference: CHD 34/20733 C

Date: 17 October 2022

TECHNICAL COMMITTEE: Environmental Management, CHD 34

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Environmental Management Sectional Committee, CHD 34. Please [click here](#) to view the document.

Document Number: CHD 34 (20733) WC

Title of the document: GREENHOUSE GASES Part 3 Specification with Guidance for the Validation And Verification of Greenhouse Gas Assertions First Revision

Document Type: Revision of Indian Standard (IS/ISO 14064: PART 3: 2006)

This document has the following salient features which may require specific attention for your valuable comments:

- 1) *The major changes in this revision as compared to the previous edition are as follows:*
 - a) *The structure of the document has been changed so that verification and validation are discussed in sequence (see Clauses 6 and 7) rather than in parallel because the processes of verification and validation are significantly different.*
 - b) *The definitions of verification and validation and other key terms have been changed (see Clause 3).*
 - c) *A new section on validation has been added (see Clause 7). It applies to future estimates of emissions, removals, emission reductions, and removal enhancements. The purpose of validation is to provide assurance on the assumptions, limitations, and methods used to develop a GHG statement.*

d) A new Annex A has been added that defines requirements for verifiers to follow when undertaking engagements at a limited level of assurance.

e) A new Annex B has been added to considerations for verification.

f) A new Annex C has been added to a new process called agreed-upon procedures (AUP), which allows for a selection of verification activities to be performed and reported upon. No opinion is expressed on the result of an AUP engagement as the intended user(s) are responsible for interpreting the information reported on by the verifier.

g) A new Annex D has been added that provides guidance on how verifiers and validators can provide statements on engagements that are mixed.

h) Requirements and guidance on the use of levels of assurance have been added.

Please examine the document and share your comments regarding further improvement in the document.

The last date for sharing the comments is: 16 December 2022

The comments should be shared in the prescribed template through this portal only, and the comments so received shall be taken up by the Sectional Committee for necessary action. For any other query, please write an email at chd34@bis.org.in to the undersigned at Bureau of Indian Standard, Manak Bhawan, 9, Bahadur Shah Zafar Marg, New Delhi.

In case no comments are received, we would presume your approval of the documents. However, in case we receive any comments on the document, the same shall be put up to the Sectional Committee for necessary action.

Thanking You,

**Yours faithfully,
