DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : CHD 16 (22358)

Date : 25 October 2024

TECHNICAL COMMITTEE : Paper based packaging materials, CHD 16

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Paper based packaging materials Sectional Committee, CHD 16. Please [click here](#) to view the document.

Document Number : CHD 16 (22358) WC

Title of the document : Paper-Based Materials for Food & Beverage Delivery and Serving Applications - Specification

Document Type : New Indian Standard

This document has following salient features which may require specific attention for your valuable comments:

1) *Food and beverage delivery and serving materials are critical for safety, requiring options that do not interact with their contents. While metal and glass have traditionally been used, the popularity of plastic has risen due to its lighter weight and cost-effectiveness. However, concerns over plastic waste and recycling have prompted societal caution about its environmental impact. In response, the Indian Ministry of Environment, Forest and Climate Change has enacted legislation to hold producers accountable for their environmental responsibilities. Paper-based materials for food and beverage delivery are becoming more popular. A committee is developing standards for paper and paperboard-based barrier-coated materials to ensure their quality and safety for human consumption. These standards will apply to various shapes, such as wraps, bags, cartons, and containers, intended for serving or delivery, not storage.*
