DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : FAD 28/T

Date : 15 October 2024

TECHNICAL COMMITTEE : Test methods for food products, FAD 28

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Test methods for food products Sectional Committee, FAD 28. Please [click here](#) to view the document.

Document Number : FAD 28 (26736) WC

Title of the document : Sensory Evaluation of Foods Guide Part 3 Statistical Analysis of Data Section 1 Difference Preference Tests Second Revision of IS 6273 Part 3 Sec 1

Document Type : Revision of Indian Standard (IS 6273 : Part 3 : Sec 1 : 1983)

This document has following salient features which may require specific attention for your valuable comments:

1) This standard (Part3) was originally published in 1975. In the first revision of the standard published in 1983 the standard was split into two sections, Section 1 dealing with difference/preference tests and Section 2 dealing with ranking and scoring tests. The first revision brought together various tests of the same type having same field of application. The various statistical tests were presented in a more simplified form so that a common user may be able to understand them easily. Further, it also incorporated the preference matrix analysis, which was based on the extension of the paired comparison test to more than two samples. The sign test was deleted, as the same purpose is served by the paired comparison test. While bringing out second revision, the standard has been brought out in the latest style and format of Indian Standard, and references to Indian Standards, wherever applicable, have been updated.

Please examine the document and share your comments regarding further improvement in the document.
