

DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : LITD 20/T-24462

Date : 06 May 2024

TECHNICAL COMMITTEE : Indian Language Technologies And Products, LITD 20

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Indian Language Technologies And Products Sectional Committee, LITD 20. Please [click here](#) to view the document.

Document Number : LITD 20 (24462) WC

Title of the document : Devnagari Script Behaviour for Hindi

Document Type : New Indian Standard

This document has following salient features which may require specific attention for your valuable comments:

- 1) The term “Devanāgarī Script Behaviour for Hindi (for ICT stakeholders)”, refers to the behaviour pattern of the writing system of Hindi. Languages, which have written representations use a coherent pattern which is similar to the linguistic grammar of a given language of storing the information within the system.*
- 2) The “Devanāgarī Script behaviour for Hindi” deals with the surface structure of Hindi and tries to provide the best possible “fit” for shapes and their representation of the conjunct forms with the help of specialists (linguists, font designers, language experts, academicians) who work in the area of the written representation of the language. Since this is a highly subjective issue, the shapes provided here are recommendations at the best and conform to the perception of the mandating body/evaluators that consensually arrive at the “best possible fit” which is acceptable to a majority of users. Other languages which use Devanāgarī script, the script grammar for these are dealt with in separate documents.*

Please examine the document and share your comments regarding further improvement in the document.
