## DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : LITD/22/23736

Date: 10 October 2023

## **TECHNICAL COMMITTEE : Geospatial Information, LITD 22**

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Geospatial Information Sectional Committee, LITD 22. Please <u>click here</u> to view the document.

Document Number : LITD 22 (23736) WC Title of the document : Addressing Part 3: Address data quality Document Type : New Indian Standard

This document has following salient features which may require specific attention for your valuable comments:

1) This document is a profile of ISO 19157 and is needed due to the uniqueness and complexity of addressing. The temporal nature of addresses, their components, and the real-world objects they identify can make it difficult to determine if addresses are missing or incorrectly included in a dataset. An address is also a complex collection of information with attributes and components that often reference other objects or are restricted by other components. These are just a few of the challenges faced by address data stakeholders that this document aims to overcome. Its objective is to ensure address data quality is maintained and/or improved by establishing a set of address data quality measures. Furthermore, this document can be used to understand and communicate the quality of an address dataset when address data aggregation or sharing needs to be accomplished.

2) This document can be used by those evaluating and reporting the quality of address data such as address data managers, address data aggregators, and address data users. This document does not attempt to define minimum acceptable levels of quality for address data.

Please examine the document and share your comments regarding further improvement in the document.

## Last date for sharing the comments is : 09 December 2023

The comments should be shared in the prescribed template through this portal only; and the comments so received shall be taken up by the Sectional Committee for necessary action. For any other query, please write an email at litd@bis.gov.in to the undersigned at Bureau of Indian Standard, Manak Bhawan, 9, Bahadur Shah Zafar Marg, New Delhi.

In case no comments are received, we would presume your approval of the documents. However, in case we receive any comments on the document, the same shall be put up to the Sectional Committee for necessary action.

Thanking You,

Yours faithfully, (Ashish Tiwari Scientist 'D') (Electronics and Information Technology Department) Email: litd@bis.gov.in ×
