To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Computer hardware, Peripherals, Office equipment and User Interfaces Sectional Committee, LITD 36. Please [click here](#) to view the document.

Document Number : LITD 36 (20617) WC

Title of the document : Information Processing - Volume and File Structure Of CD - ROM for Information Interchange

Document Type : Revision of Indian Standard (IS 14176 : 1994)

This document has following salient features which may require specific attention for your valuable comments:

- 1) This Standard specifies the volume and file structure of compact read only optical disks (CD-ROM) for the interchange of information between users of information processing systems.*
- 2) This Standard specifies — the attributes of the volume and the descriptors recorded on it; — the relationship among volumes of a volume set; — the placement of files; — the attributes of the files; — record structures intended for use in the input or output data streams of an application program when such data streams are required to be organized as sets of records; — three nested levels of medium interchange; — two nested levels of implementation; — requirements for the processes which are provided within information processing systems, to enable information to be interchanged between different systems, utilizing recorded CD-ROM as the medium of interchange; for this purpose it specifies the functions to be provided within systems which are intended to originate or receive CD-ROM which conform to this*

International Standard.
