## DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : PCD 13 (24821)

Date : 09 February 2024

**TECHNICAL COMMITTEE : Rubber And Rubber Products, PCD 13**

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Rubber And Rubber Products Sectional Committee, PCD 13. Please [click here](#) to view the document.

**Document Number : PCD 13 (24821) WC**

**Title of the document : THERMOPLASTICS HOSES TEXTILE REINFORCED FOR COMPRESSED AIR SPECIFICATION**

**Document Type : Revision of Indian Standard (IS 12492 : 2023)**

*This document has following salient features which may require specific attention for your valuable comments:*

- 1) Thermoplastics hoses are being used and manufactured not only in developed countries but even in India. Depending upon the usage, both rubber and plastics hoses have their comparative advantages and weak points. However, once the choice to use thermoplastic hose has been exercised, it is important to stipulate the parameters to be tested and also prescribe the most acceptable requirements. Taking cognizance of these changes and developments, it was decided to formulate a standard for thermoplastic hoses.*
- 2) The second revision has been undertaken to align it with the latest version of ISO 5774 : 2023 in dual numbering system to make pace with latest developments that have taken place at international level.*

Please examine the document and share your comments regarding further improvement in the document.
