DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : PCD/18/21456

Date : 25 August 2023

TECHNICAL COMMITTEE : Fragrance and Flavour , PCD 18

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Fragrance and Flavour Sectional Committee, PCD 18. Please [click here](#) to view the document.

Document Number : PCD 18 (21456) WC

Title of the document : COUMARIN SPECIFICATION

Document Type : New Indian Standard

This document has following salient features which may require specific attention for your valuable comments:

1) Coumarin (1,2-benzopyrone) is a colorless crystalline solid with a sweet odor resembling the scent of vanilla and a bitter taste. Coumarin is most often used as a fragrance ingredient, where it functions as a fragrance, as a fragrance enhancer, and as a stabilizer. Coumarin is widely used in perfumes, hand soaps, detergents, and lotions at concentrations from 0.01 to 2.4%. It is used to give pleasant aromas to household products or to mask unpleasant odors. Due to its recognizable sharp, sweet flavor, and its possibility to boost vanilla flavor, coumarin has also been used in the production of artificial vanilla extracts.

Please examine the document and share your comments regarding further improvement in the document.

Last date for sharing the comments is : 24 October 2023

The comments should be shared in the prescribed template through this portal only; and the comments so received shall be taken up by the Sectional Committee for necessary action. For any other query, please write an email at pcd@bis.gov.in to the undersigned at Bureau of Indian Standard, Manak Bhawan, 9, Bahadur Shah Zafar Marg, New Delhi.

In case no comments are received, we would presume your approval of the documents. However, in case we receive any comments on the document, the same shall be put up to the Sectional Committee for necessary action.

Thanking You,

Yours faithfully,
(ITS ADMIN)
Head (Petroleum, Coal and Related Products Department)
