TECHNICAL COMMITTEE : Man-made Fibres, Cotton and their Products, TXD 31

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Man-made Fibres, Cotton and their Products Sectional Committee, TXD 31. Please [click here](#) to view the document.

Document Number : TXD 31 (25547) WC

Title of the document : Textiles - Continuous Filament Polypropylene Yarns - Specification

Document Type : New Indian Standard

This document has following salient features which may require specific attention for your valuable comments:

1) Polypropylene filament yarns are synthetic fibers made from polypropylene, a thermoplastic polymer. It is a lightweight material, making the filament yarns suitable for various applications where weight is a concern. Polypropylene is resistant to many chemicals, making it suitable for applications where exposure to harsh substances is expected. Polypropylene filament yarns are commonly used in the textile industry for making various products such as ropes, twines, mats, geotextiles etc. This standard specifies requirements for all types of polypropylene continuous single ply multifilament yarn for various end usages. This standard covers the requirements for both dyed and undyed polypropylene continuous filament yarn

Please examine the document and share your comments regarding further improvement in the document.
