DRAFT INDIAN STANDARD IN WIDE CIRCULATION

Reference : T-14

Date : 03 February 2025

TECHNICAL COMMITTEE : Measurement and Cost Analysis of Works for River Valley Projects, WRD 23

To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Measurement and Cost Analysis of Works for River Valley Projects Sectional Committee, WRD 23. Please [click here](#) to view the document.

Document Number : WRD 23 (27479) WC

Title of the document : METHODS OF MEASUREMENT OF WORK IN RIVER VALLEY PROJECTS DAMS AND APPURTENANT STRUCTURES PART 12 TOPOGRAPHICAL SURVEYS

Document Type : Revision of Indian Standard (IS 9401 : Part 12 : 1992)

This document has following salient features which may require specific attention for your valuable comments:

1) *In measurement of works of river projects a large diversity of methods exist at present according to local practices. This lack of uniformity creates complications regarding measurements and payments. Keeping in view the large amount of financial outlay involved in river valley projects and also the fact that the authorities responsible for completing these projects, are of the state level or national level, it is felt that a suitable methodology is needed for adopting uniform practices towards the measurement of works so that the scope of complications and misinterpretation of items of work is reduced, as far as possible. This standard is intended to provide a uniform basis for measuring the work done in respect of topographical surveys for river valley projects.*

Please examine the document and share your comments regarding further improvement in the document.

Last date for sharing the comments is : 03 April 2025

The comments should be shared in the prescribed template through this portal only; and the comments so received shall be taken up by the Sectional Committee for necessary action.
