Scientist-D

**Head (CMD 2)**

**DDG (Certification)**

**Circulated to: All ROs/BOs through BIS intranet**

## **CENTRAL MARKS DEPARTMENT-2**

Our Ref: CMD-2/16:9873

29 07 2022

**Subject: Further Extension of time to micro scale toy manufacturing units for setting up in house testing facilities (including utilization of cluster based testing facilities) up to 36 months**

1. This has reference to the above.
2. Reference is invited to CMD-2's circular dated 19.05.2022 communicating that the Competent Authority has decided that BO heads shall review the status of establishment of in house testing facilities by micro scale toy units which had completed one year since grant of licence, and in such cases where micro scale units are yet to establish the required testing facilities, BO heads may grant an extension of further period of nine months (i.e. total 21 months from date of grant of licence).
3. However, Competent Authority has now decided to **further extend the time period given to micro scale toy units for setting up in house testing facilities (including utilization of cluster based testing facilities) upto 3 years i.e. total of 36 months from date of grant of licence.**
4. BO Heads are requested to take note of the above for compliance and also ensure that it is verified during surveillance inspections that toy manufacturing units operating BIS licences including micro scale units are complying with the provisions of the Scheme of Inspection and Testing i.e. in case they are yet to establish in house or utilize cluster-based test facilities for the required tests, they are getting the samples tested at third party laboratories as per the frequency specified and maintaining suitable records thereof.
5. This is issued with the approval of the Competent Authority.
