Date: 29/05/2024

Subject:- Temporary closure of test facility for potability test in non- priority Sample of 20L Plastic container as per IS 15410: 2003

It is being informed to all concerned that ERL has temporarily closed the testing of potability test as per Cl 4.6.6 of IS 15410 : 2003 on non- priority sample for 20 L jar only due to ongoing renovation work by CPWD and also due to space constraint in ERL, Annex building .

Potability test as per cl. 4.6.6 of IS 15410:2003 for 20 L jar will be carried only on priority sample (AS, SM,SS). However potability test is as per cl. 4.6.6 of IS 15410:2003 will be carried out on all sample (Priority & non- priority) for container less than 20 L capacity.

All concerned are requested to send the sample accordingly.

This is for kind information of all concerned.
