Our Ref: CMD-2/G-99

02 11 2021

Subject: Grant and Operation of Certificate of Conformity (as per Scheme IV) for Stamping/Laminations/Cores of Transformers (with or without winding) through the dedicated module in Manakonline

ROs/BOs may please consider the attached circular for immediate compliance.

Shivam Ahuja
Scientist C

Head CMD-2

Circulated to ROs/BOs through BIS intranet

BUREAU OF INDIAN STANDARDS

CENTRAL MARKS DEPARTMENT-2

Our Ref: CMD-2/G-99

Date: 02nd November 2021

Subject: Grant and Operation of Certificate of Conformity (as per Scheme IV) for Stamping/Laminations/Cores of Transformers (with or without winding) through the dedicated module

1. This is with reference to the above and guidelines issued with regards to Grant of Certificate of Conformity (as per Scheme IV) for Stampings/Laminations/Cores of Transformers (with or without winding) on provisional basis using existing module in Manakonline for Grant of Licence as per Scheme I dated 23.03.2021.
2. In this regard, it is informed that a dedicated module in Manakonline for grant and operation of CoC has now been developed and has been made operational. This module is different from the existing "Product Certification" module and contains features specific to CoC. A detailed user manual has been provided by CDAC with various stages of registration, application submission and grant of CoC by BO (User manual attached).
3. In this regard it may also be noted that 36 CoC`s (along with 10 pending applications for Grant of CoC as on date) for Stamping/Laminations/Cores of Transformers (with or without winding) have already been granted by BOs using the existing module in Manakonline for Grant of Licence as per Scheme I as temporary measure in view of exigency of matter as the date of implementation of CoC was approaching near. However, since now a dedicated module has been launched, **all new applications are to be processed under new module only with immediate effect.**
4. **Existing applications for grant of CoC, have to be ported to the new module by change of Indian Standard for the application , by the Head BO, to COC1 in place of IS 649 through the Standard Master. Similarly, all existing CoCs which have been granted as per the existing Product Certification Module in Manakonline have to be ported to the new module through the same procedure i.e. by changing the Indian Standard for the CoC to COC1 in place of IS 649 through the Standard Master.**
5. These guidelines are to be read in conjunction with the Guidelines for grant of Certificate of Conformity as per Scheme-IV issued vide CMD-I Circular No. CMD-I/2:16:1 dated 08 May 2019 as well as the Product Specific Guidelines issued for grant of CoC for this product vide CMD-II Circular No. CMD-2/G:99 dated 25 09 2020 and its Amendment dated 24.09.2021.However, Guidelines issued with regards to Grant of Certificate of Conformity (as per Scheme IV) for Stampings/Laminations/Cores of Transformers (with or without winding) on

provisional basis using existing module in Manakonline for Grant of Licence as per Scheme I dated 23.03.2021 **stand withdrawn with immediate effect.**

6. BOs are requested to ensure that since the dedicated module has already been made operative, all existing applications and CoCs granted are ported to the new module at the earliest so that no CoC is being processed or operated as per the Product Certification module. **In case any technical difficulty/issue is observed while porting the applications/CoCs to the new module, the same may be brought to the notice of ITSD and CMD-2 immediately.**
7. Further, BOs are advised to bring the above information to the notice of all manufacturers with a request to apply for CoC and also process applications for grant of CoC and operation of CoC using new module of Manakonline on priority basis. BOs are also advised to familiarize the applicants/CoC holders with the methodology as detailed in the User Manual so that applicants/CoC holders face no difficulty in submission of applications/operation of CoCs.
