## CENTRAL MARKS DEPARTMENT-2

Our Ref: CMD-2/16:9873

23 Dec 2021

**Subject: Revised Product Manual for Safety of Toys for modification in marking requirements in Scheme of Inspection and Testing to address issues in marking of special products**

1. This has reference to the above.
2. It is informed that based on representations received from industry, regarding logistical difficulties in marking of Standard Mark in case of certain special products (such as where the product is a combination of a toy and a food product), the matter has been examined and it has been decided to modify the marking requirements of the Scheme of Inspection and Testing to allow for such cases.
3. Accordingly, the following has been added to the marking clause of the SIT in the in the Product Manual for Safety of Toys: **“In case the Standard Mark cannot be incorporated on the product or packaging, it may be provided as an integral part of the package containing the toy in a manner accessible and evident to the consumer”**.
4. Modified product manual incorporating the above modification has been uploaded on BIS website. BOs are requested to please take note of the same for compliance.
