Ref No.: CL/Chemical/TF

Date:- 24.09.2024

**Subject:-** Temporary closure of test facility as per IS 2142 (Bromine Technical Specification) in CL

This has reference to the testing of Bromine Technical as per IS 2142.

Due to the recent ongoing upgradation, modernization and renovation work, the existing testing area of Bromine Technical as per IS 2142 has been utilized for testing of other chemical product categories.

In view of the same, the test facility as per IS 2142 (Bromine Technical Specification) has got temporarily out of order. Thus, CL has temporarily closed the test facility for Bromine Technical as per IS 2142.

All concerned BOs are requested to take the same into consideration while sending the sample to CL.

This is for the kind information of all concerned.
