## BUREAU OF INDIAN STANDARDS

International Relations and Technical Information Services Department

Ref: IR&TISD/General/ Standardization Portal

16 May 2024

### **Subject: New tab on 'Resources to identify future opportunities in standardization' in BIS Standardization Portal**

This is with reference to the observation at various forums of BIS that the Sectional Committees need to formulate standards on emerging subjects as well as subjects of relevance which are being considered by developed nations.

With the view to cater to the above objective, IR&TISD has created a tile on 'Resources to identify future opportunities in standardization' in BIS Standardization Portal to share the materials such as New Work Items at ISO, IEC and ITU (monthly reports), New Work Areas of standardization at other NSBs/ regional standardization bodies, Technology Trend Repots published by ISO and IEC with the Technical Committees of BIS.

All the officers of Technical Departments are hereby informed to use this data base on regular basis:

- to identify Future trends and trend nudges, their implications for standardization,
- to get insights from international organizations and workshop presentations on the trending subjects
- to identify new standardization subjects/areas to effectively meet emerging market needs and help to shape a more sustainable future,
- for strategic discussions on Annual Programme for Standardization, and
- to ensure a strong and effective India voice in international standardization from the inception of new work area by active participation and provide information advantage to Indian Industry

*Nisha*

(Nisha Bura)  
Joint Director

Head (IR&TISD)

DDG (IR&TIS, MSC and SCM)

Circulated to:

- DDG (Standardization – I)
- DDG (Standardization – II)
- Head (SCMD)
- All Technical Departments

- All officers are encouraged to use the above Tile

- The current resources in the Tile are taken from information available with IR&TISD through its interactions.

- Officers are requested that whenever they come across any resource material that can have a broader use, the same may please be shared with IR&TISD
