Subject: Engagement of Interns under BIS Internship Programme (BIS-IP)

Dear Sir/ Madam,

As you may be aware, Bureau of Indian Standards (BIS) is the National Standards Body of India, established under an Act of Parliament, the BIS Act, 2016. It is engaged in the activities of Standardization at national & international levels and operating Conformity Assessment Schemes such as the Product Certification Scheme (popularly known as the ISI Marking Scheme), Hallmarking of Gold & Silver articles and Management System Certification etc. All these activities are aimed at creating a vibrant quality ecosystem in the country to ensure availability of quality goods & services to the consumers through the industries implementing the quality standards.

2. BIS has so far formulated over 20,000 Indian Standards covering product specifications, methods of tests, codes of practices, management systems, etc. However, presently only about 1000 standards are under Certification Schemes. BIS envisages to expand the utilization of Indian Standards and also formulate new Standards as per the need of the industries and other stakeholders. To translate this into action, it is imperative that Surveys and Impact Assessment Studies are undertaken to gather realistic data to facilitate evidence based decisions related to formulation of National Standards. Surveys are also proposed to be conducted to assess the levels of satisfaction of the industries who have implemented the Standards, consumers of certified goods and also the loss to the national economy and consumer interest due to non-implementation of Standards. The outcome of the Surveys would also be utilized for gap analysis for identifying the areas for improvements in the Standards and to understand the factors that contribute to or hamper the use of standards.

3. BIS intends to engage the students of reputed universities/ institutions within the country pursuing courses in the disciplines, as given at Annexure -I, as interns for conducting the Surveys and Impact Assessment Studies, as described in the preceding para. The students will be benefitted from this exercise in terms of sound understanding of the importance and status of standards and quality consciousness in diverse sectors of Indian economy. This will, in addition, help them hone their skills for empirical study and research- related work. The interns will be paid a monthly stipend of Rs. 20,000/-. Other salient features of the Internship Programme are attached at Annexure-II.

4. Your esteemed institution has been selected for inviting nominations for interns. You may nominate the students in all or any of the disciplines (not more than 10 in a discipline) from among those, who have secured first division or CGPA 7.5 and above in their last semester examination.

5. You are requested to send the nominations for the interns, duly filled-in on proforma, as at Annexure-III latest by 15th March 2020.

Thanking you,

Yours faithfully,

(N. K. Kansara)
