FOREWORD

This Indian Standard (Second Revision) was adopted by the Bureau of Indian Standards, after the draft finalized by the Handloom and Khadi Sectional Committee had been approved by the Textiles Division Council.

This standard was first published in 1957 and subsequently revised in 1987. The standard has again been revised to incorporate the following changes:

- a) Test method for identification of material has been incorporated;
- b) Method of test for count of yarn along with its tolerance has been specified;
- c) Marking clause has been modified;
- d) References to standards have been updated; and
- e) Sampling plan has been modified.

The composition of the Committee responsible for the formulation of this standard is given in Annex B.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS 2:2022 'Rules for rounding off numerical values (*second revision*)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

Indian Standard

TEXTILES — HANDLOOM COTTON HOLLAND CLOTH, UNSCOURED — SPECIFICATION

(Second Revision)

1 SCOPE

- **1.1** This standard prescribes constructional particulars and other requirements of handloom cotton holland cloth, unscoured.
- **1.2** This standard does not specify the general appearance, lustre, feel, finish, etc of the cloth.

2 REFERENCES

The standards listed in Annex A contain provisions, which through reference in this text, constitute provisions of this standard. At the time of publication, the editions indicated were valid. All standards are subject to revision and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent edition of these standards.

3 MANUFACTURE

3.1 Yarn

The cotton yarn used in the manufacture of cloth shall conform to IS 171.

The warp used in the manufacture of cloth shall be unbleached, and the weft, grandrelle yarn (see Note) and shall be such that the cloth produced complies with the requirements of this standard.

NOTE — Grandrelle yarn has been defined as a two-ply yarn composed of single yarns which differ from each other in colour or lustre (see IS 232).

3.2 Cloth

The cloth shall be free from substances liable to cause subsequent tendering.

4 REQUIREMENTS

- **4.1** The constructional particulars of cloth shall conform to those given in <u>Table 1</u>.
- **4.2** The cloth shall also conform to the requirements given in Table 2.
- **4.3** If in order to illustrate or specify the indeterminable characteristics such as general

appearance, lustre, feel and shade of the cloth, a sample has been agreed upon and sealed, the supply shall be in conformity with the sample in such respects.

The custody of the sealed sample shall be a matter of prior agreement between the buyer and the seller.

5 INSPECTION

The cloth when visually inspected, should be reasonably free from following defects:

- a) Weft crack or more than two missing picks across the width;
- b) Prominently noticeable weft bar due to the difference in raw material, count, twist, lustre, shade, etc;
- More than two adjacent ends running parallel, broken or missing and extending beyond 15 cm;
- d) Prominent selvedge defects;
- e) Noticeable warp or weft float;
- f) Noticeable oil or other stains;
- g) Noticeable hole, cut or tear up to 3 mm in size; and
- h) Smash rupturing the texture of the fabric.

A reference may be made to IS 14466 for details of the defects.

6 SAMPLING

6.1 Lot

The quantity of handloom cotton holland cloth of the same variety, width and colour delivered to a buyer at a time shall constitute a lot.

- **6.2** To ascertain the conformity of the lot to the requirements of this standard, sample shall be drawn and inspected from each lot separately.
- **6.3** The number of pieces to be selected at random for inspection shall be in accordance with <u>Table 3</u>.

6.4 Number of Tests and Criteria for Conformity

Sl	Characteristic	Number	Criteria for
No.		of Tests	Conformity
(1)	(2)	(3)	(4)
i)	Visual	According	Number of
	inspection,	to	non-
	ends, picks,	co1 (3)	conforming
	count, length	of Table 3	pieces shall

			corresponding
			number given
			_
			in col (4) of
			Table 3
ii)	Dimensional change, weight,	According to	All the pieces shall
	colour fastness,	co1 (5)	meet the
	fibre	of Table 3	requirement
	identification		1
	and scouring		
	loss		

7 MARKING

- **7.1** The cloth shall be suitably marked or labelled with the following information:
 - a) Name of the material;

- b) Manufacturer's name, initials or trademark;
- c) Month and year of manufacture;
- d) Length and width of the piece;
- e) Indication of the source of manufacture; and
- f) Other declarations required as per law in force.

7.2 BIS Certification Marking

The product(s) conforming to the requirements of this standard may be certified as per the conformity assessment schemes under the provisions of the *Bureau of Indian Standards Act*, 2016 and the Rules and Regulations framed thereunder, and the product may be marked with the Standard Mark.

8 PACKING

Unless otherwise agreed upon by the buyer and the seller, the cloth shall preferably be packed in bales or cases in conformity with the procedure laid down either in IS 1347 or IS 293.

Bureau of Indian Standards

BIS is a statutory institution established under the *Bureau of Indian Standards Act*, 2016 to promote harmonious development of the activities of standardization, marking and quality certification of goods and attending to connected matters in the country.

Copyright

BIS has the copyright of all its publications. No part of these publications may be reproduced in any form without the prior permission in writing of BIS. This does not preclude the free use, in the course of implementing the standard, of necessary details, such as symbols and sizes, type or grade designations. Enquiries relating to copyright be addressed to the Head (Publication & Sales), BIS.

Review of Indian Standards

Amendments are issued to standards as the need arises on the basis of comments. Standards are also reviewed periodically; a standard along with amendments is reaffirmed when such review indicates that no changes are needed; if the review indicates that changes are needed, it is taken up for revision. Users of Indian Standards should ascertain that they are in possession of the latest amendments or edition by referring to the website-www.bis.gov.in or www.standardsbis.in.

This Indian Standard has been developed from Doc No.: TXD 08 (23976).
