Dear

Sir,

MeitY has received a complaint that M/S Ganzhou Novel Battery Technology, China is misusing the BIS registration No. R-41140449 for exporting Lithium cells of Model No. 1260110.

2. The Complainant has stated that M/S Vizin India Pvt Ltd., New Delhi is importing Lithium cells of Model No. 1260110 with 9,000 mAh capacity from M/S Ganzhou Novel Battery Technology, China for making power banks of 10,000 mAh.

3. M/S Ganzhou Novel Battery Technology, China is registered with BIS (R-1140449) for manufacturing Lithium Cells of Model No.1260110 with 10,000 mAh capacity only. M/S Ganzhou Novel Battery Technology, China is using the same BIS registration number for exporting the Lithium cells of Model No. 1260110 with 9,000 mAh capacity to India which is a misuse of the BIS R. No. This **not only indicates the misuse of the BIS Registration number but also the illegal import of unregistered CRO-notified products.**

4. Further, as per Clause No. 2.31 of FTP (Foreign Trade Policy) of DGFT, the imports of unregistered CRO-notified products is "Prohibited", thus, the customs authorities have been requested to take necessary action to ensure compliance with the provisions of CRO at various ports to curb the imports of unregistered CRO-notified products.

5. Since the misuse of Standard Marks falls under the purview of BIS, the Bureau is requested to take necessary action against M/S Ganzhou Novel Battery Technology, China for R-41140449, as per the provisions of the BIS Act 2016 and BIS (Conformity Assessment) Regulations, 2018 .

Warm regards,

Yours Sincerely,

(Sushil Pal)

Dear Sir

Pl refer to our discussions yesterday in your office. We have attached guidelines for cancellation of R Number.

With regards to M/s Ganzhou Novel Battery Technology, China we wish to draw your attention that they have used standard mark (Model no 1260110 – 10,000Mah) of BIS pertaining to R 41140449 on lithium cells that are not registered (ie) Model no 1260110 – 9,000 Mah) when they exported to M/S Vizin India Pvt Ltd. It is pertinent to note that 1260110, 10,000 Mah or 9,000 Mah look the same physically & visually and Vizin India Pvt Ltd who make power banks don't use 9,000 Mah power bank. This violates clause 3 of the above guidelines ' Using Standard Mark on unregistered goods hence liable for R Number cancellation.

Moreover Vizin India Pvt Ltd who makes power bank in India is also violating BIS guidelines by using 9000 Mah cells and making 10,000 Mah power bank and their R Number is also liable to be cancelled.

Similarly M/S. Brand Works Technologies Pvt Limited who makes power bank in India is also violating BIS guidelines by using 9000 Mah Cells and making 10,000 Mah Power bank and their R Number is also liable to be cancelled.

M/s Ganzhou Novel Battery Technology has another group company M/S Dongguan Novel Battery Technology Co. which is registered with BIS and have R Number 41048232. Being a group company with the same management the R Number should also be cancelled.

We are sure and confident Meity will ensure that low quality cells and deceitful practices are stopped in India.

Regards

Subject: Complaint against Ganzhou Novel Battery Technology Co - BIS R number : R-41140449 - Highly Confidential

Dear Sir,

Further to the below email pl find attached the import details of M/S Vizin India Pvt Ltd with respect to model no 1260110. This lithium cells have been imported from M/S Ganzhou Novel Battery Technology, China.

M/S Ganzhou Novel Battery Technology has registered with BIS R 41140449 lithium cell model 1260110 with 10,000 Mah capacity.

In the attached import details it is evident that M/S Ganzhou Novel Battery Technology exported with R 41140449 cell model 1260110 with 9,000 Mah. The same is imported by M/S Vizin India Pvt Ltd to make power bank of 10,000 Mah and there are no power bank in India with 9,000 Mah capacity.

M/S Ganzhou Novel Battery Technology, China registered model 1260110 with 10,000 mah and using the same R 41140449 exported 1260110 with 9,000 Mah violating BIS guidelines. This violation should be looked into strictly and the R Number 41140449 of M/S Ganzhou Novel Battery Technology should be cancelled as the import data proves the misuse of R Number.

Regards
