27 SEP 2024  
ANIMAL HUSBANDRY, DAIRY & FISHERIES

Dear Sir,

I would like to inform you that several companies are manufacturing cattle feed laced with chemicals, steroids, mycotoxins and other substandard materials and in the process causing adulterated milk and related products to be introduced into the food supply. This is causing much harm to the health of the population for the sake of profit. The cattle feed is sold to artificially increase the milk supply through harmful means and is also known to reduce the life of the cattle.

Once such company is Kapila Krishi Udyog Limited whose owner is Saurabh Shivhare (mobile phone 8400019000) at it is running from 109/363 RK Nagar, GT Road, Kanpur (UP). They are manufacturing under brand Milkomore from factories in Tatiyaganj, Kanpur (UP), Gorakhpur (UP) and Khanna (Punjab). I have been employee of this company and therefore I know full details of this. Similarly, they are taking advantage of government contracts and providing harmful adulterated cattle feed to gaushalas in Uttar Pradesh and other states leading to early death of cattle and adulterated milk food products.

I would request your ministry to investigate this company and bring full force of law to such anti-social elements of society and end this corruption.

Thank you
