IS 17058 : 2019
Glossary of Terms Relating to Brick Kilns

Sectional Committee No. & Title: CED 30, **Clay and Stabilized Soil Products for Construction Sectional Committee**

1 OBJECTIVE

- 1.1 This standard 'IS 17058 : 2019 deals with the definition of common terms relating to the brick kilns in India.
- 1.2 The objective of this action research is to study the brick kiln industry which is a crucial sector in many developing countries, providing essential building materials. However, the industry often faces issues related to inconsistent terminology, leading to misunderstandings and inefficiencies. The IS 17058 standards was introduced to address these issues by providing a comprehensive glossary of terms relating to brick kilns, identify challenges faced by stakeholders in implementing the standard and assess the impact of the standard on operational efficiency and communication.

2 ACTION RESEARCH METHODOLOGY AND RESEARCH

- 2.1 After the detail study of the national and international literature, it was observed that the current Indian standard is up-to-date with the latest practice followed, no further updating is required in the current version.

3 ACTION RESEARCH OUTPUT

- 3.1 In pursuance to the facts given above, this Indian Standard is still relevant and up-to-date. This Indian Standard may consider for reaffirmation and archive for the further period of five years.
