| S. No | Name of Product  | IS                      | Changes  | Remarks   |
|-------|--|-------------------------|----------|---|
| 1     | Plywood Tea Chests: Battens                            | IS:10 Part 3            | Complete |   |
| 2     | Rectangular tins for liquids                           | IS:1406                 | Complete |   |
| 3     | Carbon Steel wire for manufacture of wood screws       | IS:1812                 | Complete |   |
| 4     | Bicycle front forks                                    | IS:2061                 | Complete |   |
| 5     | Portland Slag Cement                                   | IS:455                  | Complete |   |
| 6     | steel wire for spokes                                  | IS:6902                 | Complete |   |
| 7     | Bicycle Frames   | IS:623                  | Complete |   |
| 8     | Specification for Boiler, Milk Aluminium               | IS:7185                 | Complete |   |
| 9     | Ghee and Edible oil tins                               | IS:10339                | Complete | Mechanical tests only                             |
| 10    | Blow Moulded HDPE containers for VANASPATI             | IS:10840                | Complete | Mechanical tests only                             |
| 11    | Flexible packs for packing VANASPATI & edible oils     | IS: 11352               | Complete | Mechanical tests only                             |
| 12    | Pillar taps for water supply                           | IS: 1795                | Complete | Mechanical tests only                             |
| 13    | Tea and strap hinges                                   | IS:206                  | Complete | Mechanical tests only                             |
| 14    | Transmission steel roller chains & chain wheels        | IS:2403                 | Complete | Mechanical tests only                             |
| 15    | Steel tubes for Automotive Purposes                    | IS:3074                 | Complete | Mechanical tests only                             |
| 16    | Steelwire for Umbrella ribs                            | IS:4223                 | Complete | Mechanical tests only                             |
| 17    | Oil Hardened and Tempered Spring Steel Wire and valves | IS:4454                 | Complete | Mechanical tests only                             |
| 18    | Staples  | IS:5348                 | Complete | Mechanical tests only                             |
| 19    | Staplers   | IS:5349                 | Complete | Mechanical tests only                             |
| 20    | Pins, Paper, Straight                                  | IS:5653                 | Complete | Mechanical tests only                             |
| 21    | Bead wire for tyres                                    | IS:4824                 | Complete | Mechanical tests only                             |
| 22    | Fab PVC Fittings: Soc req for 45 bends                 | IS:10124 Part 6, 10, 11 | Partial  | Dimensions only                                   |
| 23    | Carbon Steel castings for general purpose              | IS:1030                 | Partial  | Tensile and Bend only                             |
| 24    | Steels for cold heading                                | IS:11169                | Partial  | Dimensions only                                   |
| 25    | Sulphase Resisting Portland Cement                     | IS:12330                | Partial  | Except Compressive strength and sulphat expansion |
| 26    | Low and medium alloy steel covered electrodes          | IS:1395                 | Partial  | Dimensions only                                   |
| 27    | Structural Steel with improved Seismic                 | IS:15962                | Partial  | Except Impct test                                 |
| 28    | ShuttleCock  | IS:415                  | Partial  | Dimensions only                                   |
| 29    | Hockeyballs  | IS:416                  | Partial  | Dimensions only                                   |
| 30    | Football, Volleyballs, Basketballs                     | IS:417 Part 1,2,3       | Partial  | Dimensions only                                   |
| 31    | Alloy Steel billets, blooms & Slabs for Forgings       | IS: 4368                | Partial  | Dimensions only                                   |
| 32    | Concrete Pipes   | IS:4882                 | Partial  | except cold upsetting                             |
| 33    | Welding Rods and bare electrodes for gas               | IS:6419                 | Partial  | Dimensions only                                   |
| 34    | Flushing Cisterns for Water-closers & urinals          | IS:774                  | Partial  | except long term test                             |
| 35    | Crickets Bats  | IS:828                  | Partial  | Dimensions only                                   |

|                              |                        |         |                                |
