

WC Covering letter Synopsis Points

Sl.No.	Synopsis Points
1	In recognition of the substantial consequences of volatile organic compounds (VOC) on the environment and human health, this revision has been taken up to limit the VOC content in paint products. This revision aims to promote the usage of low VOC or VOC-free products, marking a significant step towards fostering a healthier and more sustainable environment. The prescribed limits have been carefully established, taking into account the current capabilities of small, medium, and large-scale manufacturers to produce compliant products. The ultimate goal of these measures is the complete elimination of VOC from paint products. These initial limits serve as the foundation for future reductions, encouraging manufacturers to develop and adopt innovative technologies and processes that facilitate the production of VOC-free paints.
