

1) This Standard prescribes the general and performance requirements of wired spoke wheel rims intended for use on Two wheelers (L1 and L2 category of vehicles as defined in IS 14272), three wheelers (L5 category of vehicles as defined in IS 14272), E-rickshaws and E-carts. 2) Load and deflection value for various sizes is specified under clause 4.2 of this standard. Due to unavailability of data, for other sizes, load and deflection values are not defined. To provide a provision for manufacturing and certification of other sizes, a clause has been added for declaration by manufacturer. These load and deflection values should be declared by manufacturer in agreement with vehicle manufacturer, and it shall be the responsibility of manufacturer to declare values which provide adequate safety to the wheel
