

3.	PGD/37/21517 Revision of 5371 : 1982 'Multi-Tooth Lock Washers — Specification'	15274 does not mention tolerances for square dimensions, the tolerances from IS 5369 : 1975 'General requirements for plain washers and lock washers, can be put in the standard itself'.	
4.	PGD/37/21519 Revision of IS 5373 : 1969 'Square Washers for Wood Fastenings — Specification'		
5.	PGD/37/21520 Revision of IS 8033 : 1976 'Round Washers with Square Hole for Wood Fastenings — Specification'		
6.	PGD/37/19646 Revision of IS 2232 : 1967 'Slotted and Castle Nuts — Specification'	The draft was wide-circulated on 13-01-2023. No comments had been received so far.	Since no comments have been received, the committee decided to send this document for wide circulation for a period of 2 months.
7.	PGD/37/21682 Revision of IS 1367 (Part 7) : 1980 'Technical Supply Conditions for Threaded Steel Fasteners : Part 7 Mechanical Properties and Test Methods for Nuts Without Specified Proof Loads'	The draft was wide circulated on 02-01-2023. No comments had been received so far.	Since no comments have been received, the committee decided to send this document for wide circulation for a period of 2 months.

#### **Item 5 DRAFT INDIAN STANDARDS UNDER WIDE CIRCULATION DUE FOR FINALISATION**

The following drafts were wide circulated for comments. Please see the table below for the decision of the committee.

<b>Sl. No.</b>	<b>Document No. and IS Standard</b>	<b>Remarks</b>	<b>Decision of the Committee</b>
----------------	-------------------------------------	----------------	----------------------------------

1.	PGD/37/18747 Revision of IS 866 : 1957 'Tinmens Rivets — Specification'	The committee in its previous meeting had decided to change Clause 9.1.1 <i>Hardness Test</i> to: “Rivets shall have Brinell hardness not exceeding 150 when tested in the shank as per IS 1500 (Part 1).” The draft was wide-circulated for 2 months and last date of comment was <b>30 October 2022</b> . No comments had been received so far.	The committee deliberated and decided to revise the clause on hardness as: “Rivets shall have Vickers hardness not exceeding 155 HV when tested in the shank as per IS 1501 (Part 1).”  The committee also decided to re-draw Fig. 1 as per the latest drawing practices.  The committee requested the Member Secretary to wide circulate the draft again for a period of 1 month incorporating the changes. In case no comments are received in the wide circulation stage, it was decided to send the document for printing in consultation with the chairman.
2.	PGD/37/18737 Revision of IS 3468 : 1991 Pipe Nuts — Specification	IS 3468 : 1991 was based on DIN 431 : 1982. The P-darft circulated among the committee was done updating the references. However, the wide-circulated draft was prepared based on latest DIN 431 : 2013.  The last date of comments on wide-circulate draft was <b>17 February 2023</b> .  No comments had been on the draft.	The committee decided to send this document for printing.

## Item 6 HARMONISATION OF STNADRDS WITH ISO

**6.1** Some of the Indian Standards were harmonized with ISO standards as base standards. Some of the ISO standards have been revised and updated. The list of such Indian Standards with the status of the base ISO standards is given below. The committee deliberated and decided as mentioned in the table given below:

Sl No.	IS No.	IS Title	Base ISO Standard	Remarks	Decision of the Committee
1.	IS 1367 (Part 6) : 2018	Technical supply conditions for threaded steel fasteners Part 6 Mechanical properties of fasteners made of carbon steel and alloy	ISO 898-2 : 2012	ISO Revised in 2022	The committee decided to harmonize the Indian standard
