Indian Standard
SPECIFICATION FOR
READY-TO - USE INSECTICIDES FOR
SPOT APPLICATION

FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 26 February 1982, after the draft finalized by the Pest Control Sectional Committee had been approved by the Agricultural and Food Products Division Council and Chemical Division Council.

0.2 Ready-to-use insecticides are used to control insects in household for spot applications.

0.3 Before proceeding for the quantitative estimation of concentrations as given in 2.2, it would be desirable to ensure that materials conforming to this standard should not include other pesticides.

0.4 In the preparation of this standard, due consideration has been given to the provisions of the Insecticides Act, 1968, and the Rules framed thereunder. However, this standard is subject to the restrictions imposed under these, wherever applicable.

0.5 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS : 2-1960*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

1. SCOPE

1.1 This standard prescribes requirements and methods of sampling and tests for ready-to-use insecticides for spot application.

*Rules for rounding off numerical values (*revised*)
