

**(PREVIEW)**  
***Indian Standard***  
**SPECIFICATION FOR**  
**CANNED CARROT IN BRINE**

**FOREWORD**

**0.1** This Indian Standard was adopted by the Indian Standards Institution on 28 July 1982, after the draft finalized by the Fruits and Vegetables Sectional Committee had been approved by the Agricultural and Food Products Division Council,

**0.2** Canned carrot is the product prepared from mature carrots of suitable varieties. The carrots are cleaned and packed in brine. They are processed in appropriate manner before and after being sealed in cans so as to prevent spoilage.

**0.3** There is ample scope for development of trade in canned carrot both for export and for internal consumption. It is necessary to ensure the quality of the product if the demand is to be maintained and further developed. In order to ensure proper quality it is necessary to have strict quality control based on specifications. It was, therefore, found necessary to formulate an Indian Standard Specification for this product.

**0.4** In the preparation of this standard, due consideration has been given to the provisions of the Prevention of Food Adulteration Act, 1954; the Prevention of Food Adulteration Rules, 1955 and the Fruit Products Order, 1955. However, this standard is subject to the restrictions imposed under these wherever applicable.

**0.5** For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS : 2-1960\*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

**1. SCOPE**

**1.1** This standard prescribes the requirements for (*Daucus Carota. L*) canned carrot in brine.
