Indian Standard

**DIMENSIONS FOR CERAMIC BUSHINGS
FOR TERMINALS**

1. SCOPE

1.1 This standard covers the dimensions for ceramic bushings required for insulating the terminals of electrical equipment, such as rotating machines and power capacitors.

1.2 This standard covers the ceramic bushings for flameproof enclosures also.

1.3 Ceramic bushings covered in that standard are only the insulating inserts. Metallic terminal studs and fasteners shall be selected according to the requirements of the rotating machines and power capacitors.
