It covers method of sampling, preliminary examination of consignment, conditioning and the methods of test for the determination of the following

- a) Substance or ream weight,
- b) Thickness,
- c) Bulk,
- d) Moisture content,
- e) PH value,
- f) Ash,
- g) Tensile strength and stretch,
- h) Breaking length,
- j) Bursting strength,
- k) Folding endurance,
- m) Tearing' resistance,
- n) Sizing,
- p) Resistance of writing papers to feathering,
- q) Water penetration,
- r) Water absorbency,
- s) GIOIS,
- t) Opacity,
- u) Oil absorbency, and
- v) Fiber composition (furnish).

**1.2** Should there be any inconsistency between the requirements of this standard and those of the standard for an individual material, the latter shall prevail. '
