Indian Standard
SPECIFICATION FOR
KHURPI

0. FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 31 October 1983, after the draft finalized by the Horticultural Equipment Sectional Committee had been approved by the Agricultural and Food Products Division Council.

0.2 *KHURPI* is a hand tool used for weeding purposes in vegetable gardens and for other crops. This tool is mostly used by a person in squatting position. The weeds are either cut on the ground level or removed from the root zone by the blade of the *KHURPI*. This standard stipulates various quality parameters for a *KHURPI*.

0.3 The figure in the standard is given only as a typical illustration and should not be considered as suggestive of any standard design.

0.4 In preparation of this standard assistance has been derived from Central Institute of Agricultural Engineering (ICAR), Bhopal and Passi Mechanical Works, Ludhiana.

0.5 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis shall be rounded off in accordance with IS : 2-1960*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

1. SCOPE

1.1 This standard specifies material, dimensional and other requirements for *KHURPI*.
