Indian Standard

SPECIFICATION FOR CENTRIFUGAL SWITCH FOR SINGLE-PHASE INDUCTION MOTORS

1. SCOPE

1.1 This standard covers general requirements and tests for the centrifugal switch used in single phase induction electric motors. It does not cover two contact type centrifugal switches for special application.

1.2 The standard requirements of single phase induction motors are covered separately in IS : 996-1979*.

*Specification for single-phase small ac and universal electric motors (*second revision*).
