*Indian Standard*  
**IRRIGATION EQUIPMENT — ROTATING  
SPRINKLER**  
**PART 2 TEST METHOD FOR UNIFORMITY OF DISTRIBUTION**

**1 SCOPE**

This standard (Part 2) specifies the conditions and methods used for testing the uniformity of distribution of rotating sprinklers, expressed as a function of the coefficient of distribution uniformity ( CDU ). It applies only to stationary rotating sprinklers intended for irrigation and for operation at the pressures recommended by the manufacturer.

**2 REFERENCES**

IS 12232 (Part 1 ) : 1987 'Rotating sprinklers: Part 1 Design and operational requirements', is a necessary adjunct to this standard.
