Indian Standard

GLOSSARY OF TERMS USED IN FERTILIZER TRADE AND INDUSTRY

(Second Revision)

FOREWORD

0.1 This Indian Standard (Second Revision) was adopted by the Indian Standards Institution on 16 June 1980, after the draft finalized by the Fertilizers Sectional Committee had been approved by the Petroleum, Coal and Related Products Division Council.

0.2 This standard was first published in 1958 and revised in 1963. Keeping in view the latest experience in manufacture and trade, the Sectional Committee decided to revise this standard. It is intended chiefly to cover the technical definitions of most of terms, and it may not necessarily include all the legal meanings of the terms.

0.3 Should any inconsistency exist between the terms as defined in this standard and those defined in standards for individual materials, the latter shall prevail.

1 SCOPE

1.1 This standard defines the terms widely used in the fertilizer trade and industry in this country.
