Indian Standard

WARMING PLATES – SPECIFICATION

1 SCOPE

Clause 1 of IS 302 : 1979 is applicable except as follows:

1.1 Replacement

This standard covers the electric warming plates, warming trays and similar devices for keeping the food or food vessels warm for household and similar purposes.

NOTE - Appliances not intended for normal household use but which nevertheless may be a source of danger to the public such as the appliances intended to be used by persons in canteens and restaurants are within the scope of this standard.

1.2 Replacement

This standard does not apply to:

- i) appliances made of flexible material such as textile materials,
- ii) appliances intended to be used in location where special conditions prevail such as the presence of a corrosive or explosive atmosphere (dust, vapour or gas), and
- iii) appliances designed exclusively for commercial catering or industrial purposes.

1.3 Replacement

This standard covers the general, constructional safety, performance requirements and methods of tests of warming plates, warming trays and similar devices and takes into account the influence on safety of components necessary to achieve required degree of radio and television interference suppression.
