Indian Standard
IRRIGATION EQUIPMENT – EMITTIERS
SPECIFICATION

1 SCOPE

This standard specifies mechanical and functional requirements of irrigation emitters, test methods and the data to be supplied by the manufacturer to permit correct installation and operation in the field.

2 REFERENCES

For the purpose of this standard the following standards are necessary adjunct to this standard:

<i>IS No.</i>	<i>Title</i>
12786 : 1989	Polyethylene pipes for irrigation laterals
13479 : 1992	Assembled joints between fittings and polyethylene pressure pipes - Test of resistance to pull out
