## *Indian Standard*

# **BITUMEN BASED FELTS — METHODS OF TEST**

## **PART 6 WATER ABSORPTION TEST**

### **1 SCOPE**

This standard (Part 6) covers the method for determination of the water absorption of bitumen felt when immersed in water at the normal atmospheric temperature for 24 hours.

### **2 REFERENCES**

The Indian Standard IS 4911 : 1986 'Glossary of terms relating to bituminous water-proofing and damp-proofing of buildings' is the necessary adjunct to this standard.
