Indian Standard

**SELECTION AND DEVELOPMENT OF SITE
FOR BUILDING IN HILL AREAS —
GUIDELINES**

PART 1 MICROZONATION OF URBAN CENTRES

1 SCOPE

This Standard provides guidelines for preparation of microzonation map of a region to be used for an urban centre or multi-purpose project site for regulating siting of housing and office complexes, commercial and industrial sectors, community services and other engineering structures to prevent damage from natural and procreated hazards resulting in ground failures and inundation of built up areas.
