## *Indian Standard*

# **PARAMETERS FOR ENVIRONMENTAL IMPACT ASSESSMENT OF WATER RESOURCES PROJECTS**

## **1 SCOPE**

This standard gives the various parameters which needs to be standardized with respect to environmental impact assessment of water resources projects.

## **FOREWORD**

This Indian Standard was adopted by the Bureau of Indian Standards, after the draft finalized by the Environmental Assessment and Management of Water Resources Projects Sectional Committee had been approved by the Water Resources Division Council.

There is no ISO standard on the subject. This standard has been prepared based on the data received indigenously and also taking into consideration the practices prevalent in the field in India.

The composition of the Committee responsible for the formulation of this standard is given in Annex A.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS 2:1960 'Rules for rounding off numerical values (revised)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.
