FORMAT FOR SYNOPSIS OF INDIAN STANDARDS

Number and Title of the Indian Standard: IS 17421:2020 Geosynthetics — Identification on Site [DOC. TXD 30 (15142)]

Scope:

This document specifies the information accompanying geosynthetics to enable the user on site to identify the goods as being identical to the goods ordered. The positive identification, e.g. of unwrapped or rolled-out geosynthetics, is an important aim of this document.

The information specified does not replace a technical data sheet and cannot be used to verify the conformance of the product with the technical requirements.

a) Salient features of content: This document specifies the requirement of Unique identification on delivery to ensure positively identifying the product at the time of delivery and Product marking for identification on installation even if product is no longer in the original packaging.

b) Types/Grades/classes, if any covered in the standard: NA
