

Indian Standard
SPECIFICATION FOR
PLAIN WASHERS
(First Revision)

1. SCOPE

1.1 This standard lays down the requirements for plain washers of the following types:

- a) Machined washers, for precision and semi-precision grade of general purpose bolts and screws, in the diameter range 1·7 to 155 mm:
- b) Punched washers, type A, for black grade general purpose bolts and screws, in the diameter range 1·7 to 52 mm; and
- c) Punched washers, type B, for slotted head screws in the diameter range 1·8 to 22 mm,
